

POS systems for Restaurants

Trivec offers POS systems for restaurants, bars, hotels, and nightclubs. Together with our partners, Trivec helps restaurant owners streamline the management of their operations.

- ✓ Easy-to-use technology
- ✓ Hundreds of partner integrations
- ✓ Mobile solutions for ordering and payment
- ✓ 24/7 support and on call
- ✓ A scalable system

Beer tap system

Improved quality and full control of poured beer.

Liquor system

Gain control of your liquors and aperitifs.

Self-service Beer wall

Allows your customers to pour beer, wine or soda from taps on a wall using a prepaid card.

Kitchen Display System

Increase efficiency and organize your kitchen. Track orders and minimize mistakes.

Trivec HandyPay

A mobile solution for quick tableside ordering for the waiting staff.

Trivec Handy

A 2-in-1 mobile solution that combines the features of an ordering pad and a payment terminal, with flexible tipping options.

POS-system

Supports your entire business; from bookings, table management and ordering to the logistics.

Kiosk

Reduce wait time and increase upselling with self-service kiosks.

Trivec Insights

Access all relevant data from your restaurant with our web portal.

Integrations

A partner ecosystem for table reservations, staff management, hotel operations, and much more.

QR code

A web-based solution for mobile ordering and payment for the guests.

Trivec Go

A full-scale POS system that supports all your processes in a tablet.
